BELLADONNA WALKABOUT / DRIVEABOUT

Meet Belladonna in her Venus Flytrap drawn chariot.

She dispenses gardening tips whilst trying to find a tasty morsel for her hungry plants.

Meanwhile a charming Fly draws near and is besotted by her verdant beauty.

Can he woo her without being eaten alive?

"I was extremely impressed with Bell & Bullock. The 'Belladonna and her Venus Flytraps' Show was fantastic and very well organised. They worked really well with our visitors both children and adults their costumes and props were brilliant and very professional. They worked above and beyond what was expected. I would not hesitate to book them again."
