TIME MACHINE SHOW TIME TROUBLE

Join our two bonkers boffins, Warp and Weft on a voyage through deepest history. Meet whip cracking Romans and morris dancing Vikings. Thrill to the gravity defying Stuarts and mind reading Victorians!

Using a fantastic fusion of circus skills and clowning, magic and visual comedy this family show is full of absurdly funny nonsense mongering and toothsome tomfoolery.

Created and performed by
Karen Bell and Dafe Bullock.
Directed by John Lee.

TIME MACHINE DRIVEABOUT

Let Professor Warp and Ms Weft,
our two Victorian time travellers,
show you their box of cosmic
secrets.

Hear the sound of the universe and
experience the big bang.

Learn how long is a piece of cosmic
string and what the winning lottery
numbers could be!

Numbers may not be correct for this Universe.
