

Bell and Bullock - Walkabout/Driveabout Act - Time Travelling Victorians

Promotional Copy:

Behold the Time Machine; an incredible piece of eccentric engineering. Let Professor Weft and Miss Warp, our two intrepid Victorian time travellers, show you their box of cosmic secrets. Originally from 1888 they will be astounded to hear from you what the latest inventions of today are. Hear the sound of the universe, learn how long a piece of cosmic string is and even what the winning lottery numbers are going to be!*

** Numbers may not be correct for this universe, or even this country. Arnold from Ealing won a tenner once, but it was a Lotto in France and he spent more than that on the ferry home...*

Show Day contact number: 07910 693890

Set Building and Preparation: We will arrive at least 1 hour before our first performance.

Personel: Two Performers, both will ride in the Time Machine.

Technical Specifications:

- ◆ The Time Machine is based on a mobility scooter and has a top speed of 4mph. It can be driven on flat surfaces, paved or grass, but not steps, big cobbles or very steep inclines.
- ◆ The Machine is **2m long, 1.14m wide and 1.8m high.** and will fit through a regular double doorway.
- ◆ The machine contains the sound system for the act and is self contained for power.

Our Requirements:

- ◆ A safe place to store the machine between show spots. This can be outdoors as we have waterproof tarpaulin covers.
- ◆ For multiple day bookings having a place to store the machine overnight is greatly appreciated, where possible, as it saves us from having to de-rig and rebuild the next day.
- ◆ Secure changing facilities (we can use our van if needed) with access to backstage toilets.
- ◆ Parking for our van (preferably close to the performance area). It is a Blue Peugeot Boxer Registration: **FH66 VJC.** Dimensions: **6.4m long, 2.5m wide and 2.5m high.**
